## 👤 PROFILE

Detail-oriented professional with a degree in Operations Management from RMIT, eager to transition into the technology sector. With a strong foundation in organization, teamwork, and problem-solving from my hospitality experience, I am committed to applying these skills to software and cloud engineering. Currently enhancing my technical expertise through coding courses at Monash University and Codecademy, I am passionate about leveraging my background to contribute effectively in a dynamic tech environment.

## 🔒 EMPLOYMENT HISTORY

### Sous Chef at MCG Stadium (Full-time)

November 2022 — Present

- **Operational Efficiency:** Managed multiple kitchen sections (Canape, Vegetable, Meat, and Sauce) ensuring high standards of service during peak event days.
- **Team Leadership:** Led a team of 15-20 staff, fostering collaboration and maintaining quality control under pressure.
- **Menu Development:** Assisted with menu creation, incorporating feedback and analysis to optimize food costs and enhance customer satisfaction.
